Testimonials

"Calling James a proofreader does not do him full justice. To be sure, he attended to my highly specialized philosophy book with rare precision and sensitivity. Not only did he catch my errors, but he also made me sound better! I would prefer to call him a *collaborator* of unequalled expertise. Further, he completed his work ahead of schedule, and substantially lowered our agreed-upon fee as a result. I recommend him enthusiastically and unequivocally."

"Now that my book-editing project is completed I want to thank you for your excellent work on it. You struck just the right balance between making corrections and spotting textual issues. And you accomplished this work with exemplary promptness and efficiency. I would be glad to come to you again with this sort of project."

— [Dr. Nicholas Rescher](#), University of Pittsburgh, USA

"Already now four months that we have been collaborating with James to write specialised articles for the construction tech industry. Whether in terms of the structured collaboration or his professionalism as a technical copywriter, it is a real pleasure to work with him."

"James is a true professional; he is conscientious, meticulous, timely, congenial, and very easy to work with. He gave a veracious outline of the editing/proofreading process itself and delivered on all counts. He also navigated the manuscript, a non-fiction book dealing with a very specialized topic, with sensitivity and exceptional aplomb. His services are also, in my opinion, very affordable. I would highly recommend James."

"I'm very happy with the quality of the work. As well as taking care of the nuts and bolts of the job, James challenges points in the manuscript that need further clarification, and spots narrative inconsistencies as part and parcel of his proofing service."

— [Chris Lomas](#), Senior Editor at [Trigger Publishing](#)

"James recently worked for us on the PDF proofread of a large textbook for a vocational training course. He completed the project on time and to a very high standard, raising relevant queries throughout the process and also keeping me informed of progress. I would happily recommend James to anyone who is looking for an excellent proofreading service."

— [Imogen Miles](#), Desk Editor at [Hodder Education](#)

"I could not expect more from James' services. James is a great, professional proofreader and really committed to improving English texts of non-native speakers, but he also tends to keep the author's personal writing style. This is what I appreciated the most. The corrected manuscript was also sent to me very promptly and he kept me informed about all updates during the proofreading process. I strongly recommend him for researchers aiming to improve their scientific contributions and I am surely going to contact him again to help me with my future projects. Thanks again, James!!"
